

Ms. Jacobson,

I am the Administrative Assistant in the Superintendent s office at the Franklin Borough Elementary School in Franklin, NJ. Last week my children were fortunate enough to take a flight on the AeroSpace Bus at their school, ASK Elementary School, in Port Jervis, New York. What a great experience for the children! My 6 year old is now inspired to become an astronaut!

After seeing this story on our local news and reading about your visit to the school, I would love to learn more about how I can bring this to our students here at Franklin Elementary School during the 2006-07 school year. Could you please provide me with further information on how this can be arranged?

Thank you for your time and assistance. I look forward to hearing from you.

Mrs. Tracie Doss
